

# SHAPING THE LANDSCAPE FOR FUTURE GENERATIONS

# OUR STORY

---

Welcome to BK Civil Group, where dedication, hard work, and an unwavering pursuit of excellence have shaped our journey.

From our origins in Cambooya, Queensland, nearly two decades ago, we have evolved from BK Hire Pty Ltd to BK Civil Group in 2019, marking a significant milestone in our commitment to setting new standards in civil construction and plant hire across Australia's eastern seaboard.

As a proudly Australian-owned company, BK Civil Group is your trusted partner for superior civil construction and plant hire solutions.

# OUR VALUES

## DILIGENT

Strive to exceed in everything we do

## ACCOUNTABLE

Own every decision we make – good or indifferent

## COLLABORATIVE

Work together to achieve a common goal

## SOLUTIONS ORIENTED

Think outside the box to come up with innovative solutions for ourselves and our clients

## PROUD OF WHO WE ARE

Wear the uniform with pride and be proud of the quality of product delivered

**WE WORK WITH OUR CLIENTS AND  
PROVIDE VALUE FOR MONEY SOLUTIONS**

**– BLADEN BINNEY,  
MANAGING DIRECTOR**

# OUR CAPABILITIES

---

## PLANT HIRE

At BK Civil Group, we offer an extensive inventory of over 400 items of plant for hire. Whether you need specific machinery or a full-service crew to support your project, our flexible solutions provide the right resources exactly when you need it. Our transport fleet, featuring trucks and floats capable of hauling our equipment, ensures efficient and reliable delivery to your site.

## BULK EARTHWORKS

At BK Civil Group, moving dirt is more than just a task—it's our specialty. With experience handling projects from 50,000 BCM to over 5 million BCM, we excel in bulk earthworks with precision and efficiency. Whether serving local and state governments, mining companies, or agricultural and civil infrastructure projects, our proven track record highlights our dedication to delivering superior results every time.

## TAILINGS STORAGE FACILITIES

With extensive experience in constructing dozens of tailings storage facilities, BK Civil Group is a trusted name in tailings dam construction. Our expertise covers both upstream and downstream lifts, including new dam construction, buttress strengthening, ancillary and decant works. Committed to quality, safety, and reliability, we ensure the integrity and longevity of every tailings dam we build.

## FEEDLOTS & AGRICULTURE

At BK Civil Group, our experienced team specialises in feedlot construction, providing a full suite of services from building new feedlots and pen extensions to constructing silage bunkers. We also offer expertise in road construction and repairs, as well as dam construction and maintenance, delivering comprehensive support for agricultural projects of all sizes.

## ROAD & RAIL

At BK Civil Group, we excel in road construction, from farm tracks to state highways, delivering durable and reliable roadways that meet the needs of our clients and the communities they serve. Our expertise also extends to earthworks for rail infrastructure projects, ensuring the successful completion of projects that enhance the growth and connectivity of our nation's transportation networks.

# OUR PROJECTS

## TAILINGS STORAGE FACILITIES

### AURELIA METALS - PEAK GOLD MINE

#### STAGE 5 TAILINGS STORAGE FACILITY UPSTREAM RAISE

**Value:** \$8M

**Location:** Cobar, NSW

**Duration:** Jan 2022 – Dec 2022

The project involved the construction of a 5m upstream TSF embankment raise comprising of >400,000m<sup>3</sup> of borrowed and conditioned tailings material, complete with concrete decant structure and spillway. The project included >2km of HDPE pipeline and 100,000m<sup>3</sup> rock protection works.

A proactive approach was applied to the works to ensure that tailings deposition could continue throughout construction.

Challenges included water management and managing viable materials to ensure the quality of the embankment was maintained.

BKC worked closely with the site Superintendent to ensure any risks to the project were identified early and mitigated where possible.

### METALS ACQUISITION LIMITED - CSA MINE

#### STAGE 9 TSF BUTTRESS STRENGTHENING

**Value:** \$6M

**Location:** Cobar, NSW

**Duration:** October 2023 – June 2024

The project involved the strengthening of 6 tailings dam wall buttresses. Works included clearing and grubbing, stripping of topsoil, foundation preparation, haulage, placement and compaction of >250,000m<sup>3</sup> waste rock material.

With a high focus on safety, BKC implemented a call up procedure for all mining trucks to allow continued use of the waste rock stockpile area during construction of the works. Due to the effectiveness in creating a safer environment, this procedure has remained in place following the completion of works.

# FEEDLOTS & AGRICULTURE

## WOODS GROUP

### VARIOUS SITES

**CLEARING, RETENTION POND, GRAIN PAD, WATER DAMS, FEEDLOT EXPANSION WORKS, WINNING GRAVEL AND ANCILLARY WORKS**

**Value:** \$1.5M

**Location:** Goondiwindi, Dunmore and Cecil Plains, QLD

**Duration:** Mar 2022 – Oct 2024

Various Works:-

- Winning, loading, hauling, conditioning, placing and compaction of local gravels
- Clearing and stickraking of agricultural properties, clearing of fire breaks and fence lines
- Expansion of cattle feedlot
- Construction of new grain pad and hardstand
- Dam construction
- Roadworks and drainage
- Plant hire (wet and dry)

## WHYALLA BEEF

### REHABILITATION OF FEEDLOT ROWS

**Value:** \$1.5M

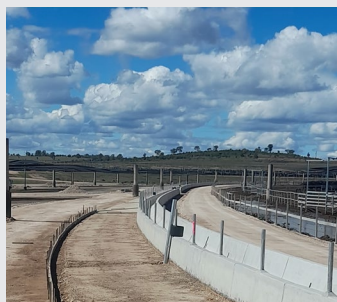

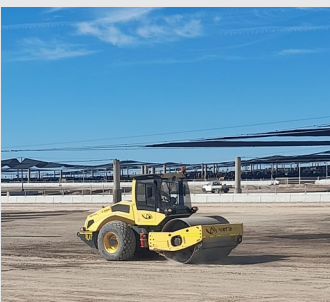

**Location:** Texas, QLD

**Duration:** Feb 2024 – Jun 2024

The project involved:

- Demolition of existing fences, feed bunks, water troughs and services
- Repair of pens, drains, cattle lanes and roads
- Replacing gravel to pens, roads and cattle lanes
- Construct new feed bunks, water troughs, services and fences

Due to a major scope change, BKC worked with the client to develop a revised methodology to reduce time and costs on the project.

# OUR PROJECTS

## PLANT

### ACCIONA CONSTRUCTION

#### MACINTYRE WIND FARM

**Value:** \$1.96B (\$13.5M BKC Contract Value)

**Location:** Warwick, QLD

**Duration:** Feb 2022 - 2024

To enable the construction of 180 wind turbines, 220km of internal roads and 2 x electrical substations, BK Civil site works included:-

- Early site access works
- Construction of internal roads
- Cut to fill embankment formation works
- Construction of bridge approaches and crane pads
- Underground service installation
- Fencing and cattle grid installation
- Carting of construction water and pavement materials
- Construction of sealed access roads
- Haul road maintenance
- Rock breaking
- Plant hire (wet)

### ADANI AUSTRALIA

#### CARMICHAEL RAIL

#### NETWORK CIVIL WORKS

**Value:** \$230M (\$15M BKC Contract Value)

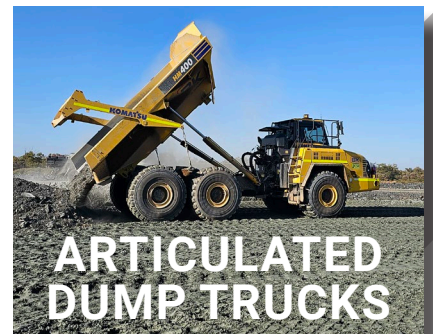

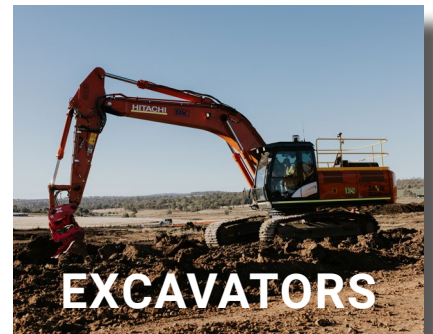

**Location:** Central Queensland, QLD

**Duration:** Feb 2020 – Sep 2021

BK Civil Group provided plant and operators to construct 86km of rail formation works on the Carmichael site located west of Mackay in Central Queensland. This project was carried out 24 hours per day, 7 days per week for nearly 2 years and consisted of 3 million cubic metres of bulk earthworks, and the construction of 10 multi-span bridges and 40km of culverts. Additional works included cut to fill embankment formation works, load, cart and place Top 600 unbound pavement layer, and minor civil works as required.

# OUR PEOPLE

---

Our success at BK Civil Group is built on the foundation of a strong, dedicated team. Our people are the heart of our operations, bringing a wealth of expertise, passion, and commitment to every project. We believe that a cohesive team is essential for achieving excellence, and we take pride in the collaborative spirit that drives our work.

Each member of BK Civil is empowered to contribute their unique skills and insights, fostering an environment of innovation and accountability. By valuing and investing in our team, we ensure that we not only meet but exceed our clients' expectations, delivering high-quality results that we can all take pride in.

# OUR TEAM STRIVE TO DELIVER EXCELLENCE EVERY DAY
