

## SPECIFICATION SHEET: 45L/DAY DEHUMIDIFIER

| 45L/Day Dehumidifier     |                                                                                       |
|--------------------------|---------------------------------------------------------------------------------------|
| Air Flow                 | 509m <sup>3</sup> /hour                                                               |
| Power Supply             | 240V/10A Single Phase                                                                 |
| Current Consumption      | 2.4A                                                                                  |
| Weight                   | 25kg                                                                                  |
| Dimensions               | 605mm(W) x 360mm(D) x 470mm(H)                                                        |
| Operating Range          | 0°C - 38°C                                                                            |
| Moisture Removal Maximum | 45 L/Day 30°C (RH80%)                                                                 |
| Moisture Removal Nominal | 25 L/Day 27°C (RH60%)                                                                 |
