

## SPECIFICATION SHEET: 50L/DAY DEHUMIDIFIER

| 50L/Day Dehumidifier     |                                                                                                |
|--------------------------|------------------------------------------------------------------------------------------------|
| Air Flow                 | 540m <sup>3</sup> /hour                                                                        |
| Power Supply             | 240V/10A Single Phase                                                                          |
| Current Consumption      | 3.1A                                                                                           |
| Weight                   | 39kg                                                                                           |
| Dimensions               | 560mm(W) x 500mm(D) x 670mm(H)                                                                 |
| Operating Range          | 2°C - 38°C                                                                                     |
| Moisture Removal Maximum | 50 L/Day 30°C (RH80%)                                                                          |
| Moisture Removal Nominal | 30 L/Day 27°C (RH60%)                                                                          |
| Features:                | Compact Design<br>Portable<br>Up to 80m <sup>2</sup> Coverage<br>Removeable & Washable Filters |
