Silver Chair

Finding its origins in an office environment, the Silver product design has been designed equally for community and privacy. It was our aim to create an object which, in its many guises, can be an integral part of or a perfectly matched addition to any location - and has just as much impact when standing alone.

Design
Manufacture
Create

An object whose quality, curves and details will cause a real stir. The Silver family has been enriched with many ideas and thoughts. It is a joy to see how each individual product can change any setting, leaving a new mark every time.
