## A coming classic

Leather, steel, laces – no more. What looks like an exhibit for an exhibition on archaism, reveals astounding quality once in use: coziness. The leather molds itself to the body, the backrest and lacing yield flexibly. You will never have sat on less.

Cuoio is the archetypal chair. Its slits in the back are its secret. They give shape, ergonomics and set visual accents. Cuoio Chair is a synthesis of function and aesthetics – a prime example of successful design.

Renouncing all upholstery materials results in a minimalistic, striking and comfortable chair. Durability and sustainability are the logical consequence; the older the leather gets, the more it gains a patina. That is perhaps the most beautiful thing about this chair. The imperfect in perfection. A coming classic. Cuoio Chair is made for eternity, for children and grandchildren.
