

WALTER KNOLL

Foster 620 Side Table

A small tree in the room - this occasional table appears to be rooted to the floor. Its richly grained solid walnut or oak stem tapers to support the streamlined table top with assured elegance. Available in black, bronze, or with an elegant leather covering.

Strong, graceful, seemingly rooted to the floor. A small tree in a room. Since their launch in 2018, the Foster 620 Side Tables have been charming companions to numerous arrangements in lounges, lobbies and all living scenarios. We are now extending the series with two new larger models which enable harmonious ensembles.

Fascinating proportions: the trunk tapers in order to carry a slimline table top with safe elegance. The leather which can be used to cover the table tops is also high-grade. Since 1998, Walter Knoll and British star architect Norman Foster have been developing modern classics which have become some of our company's most successful products.

Foster 620 Side Table succeeds in cultivating the original, its design preserves and tames the natural resource wood. Organic shapes and the silky soft, leather surfaces of the table tops produce an occasional table which touches the senses and begs to be touched.

Foster 620 Side Tables
