Light, balanced and geometrical

Oki Side Table is the physical embodiment of the basic tenets of minimalist design. The filigree wire frame bears the weight of the top.

Oki colour editions & finishes

Every year, we launch our Oki Side Table in a special color that can be combined perfectly with the existing Oki shades

2023 Sand. The restrained elegant tone stands for calm and clarity, and blends harmoniously into any interior.

2022 Lagoon. This sky-meets-water color tone adds a fresh accent without being too loud.

Brass. The surface is hand-finished in an elaborate labor of love: the brushed finish of the brass-plated top gives the metal a unique and stunning patina.

Each table is unlike any other. Also part of the range: the black matt version – simply nice to have.
