S 38/S1 Stackable Stool

Design
Manufacture
Create

Conceived to offer a trusted seating companion in the home or office, the versatile S 38/S1 Stackable Stool has become prized for its suite of complementary qualities: compact and lightweight, yet sturdy and comfortable. Immediately recognisable thanks to its four slender legs, each affixed to the solid wood seat by a smooth-topped screw, the enduringly simple form of S 38/S1 ensures its suitability for myriad occasions—as an everyday stool in its own right, or stacked away in sets of up to ten for simple storage, ready to accommodate a spontaneous guest or two at the dinner table.
