SB 38 Bar Stool

Design
Manufacture
Create

Elongating the classic S 38 S/1 Stackable Stool, the SB 38 Bar Stool offers a sophisticated yet stable seating option not only for bars within hospitality settings, but countless everyday occasions within the home or office.

Adding a loftier dimension to the compact and comfortable base design, the bar stool's four slender legs are each affixed to the solid wood seat by a smooth-topped screw and united by a circular footrest for optimal comfort and posture. SB 38 is available in two heights to fit counters or bars.
