

BASE focus desks and seating

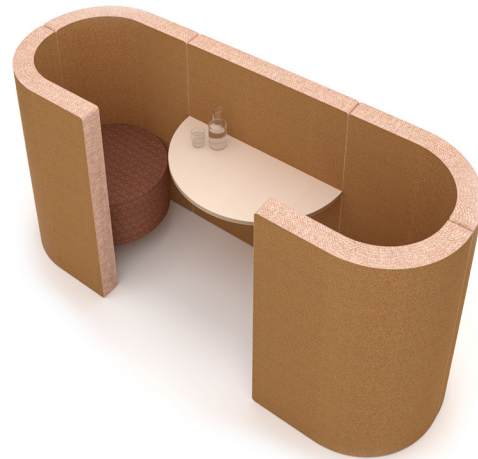

Jumping on board a 'Monolith' design movement train helped us to pare down the visual language of this range to the bare minimal geometric forms. This, we feel, secures seamless integration into many architectural environments, not dominating, but gently channelling the productivity of its inhabitants.

Design
Manufacture
Create

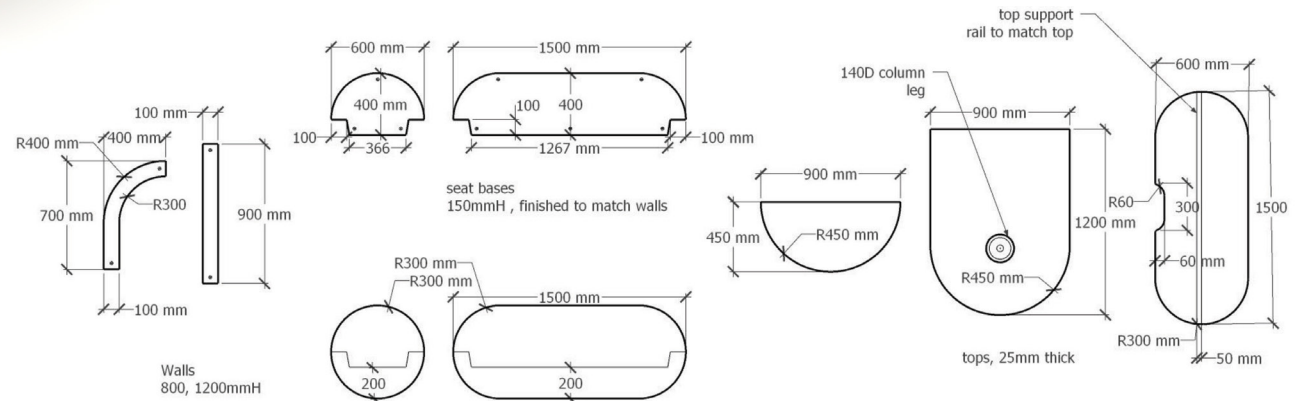

Inspired by ever so slightly brutal monolith visual language trend, a challenge was set to translate it into a soft piece of furniture with strong focus enabling function. Sound privacy is supported by a small cavity in BASE walls, helping to absorb sound with assistance of fabric and a foam layer. Work surface is also considered, where softer furniture linoleum provides with excellent writing comfort while further aiding sound travel restriction.

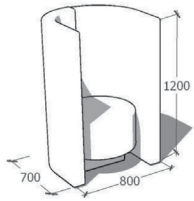

Base Components

Please consider using felt, woven or quilted fabric to further assist with sound absorption. Opt for thicker, textured ranges with a degree of stretch, this not only will help comfort and focus of its user but will also follow foamed curves much better.

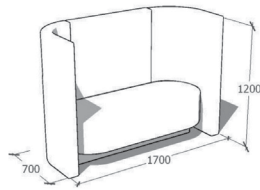

Specifications

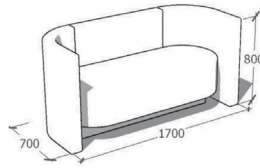

HIGH BACK SINGLE

MDF Construction with concealed glides,
Commercial grade foam
Upholstery: as specified
Seat height 450 mm

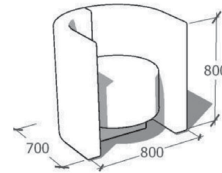

HIGH BACK DOUBLE

MDF Construction with concealed glides,
Commercial grade foam
Upholstery: as specified
Seat height 450 mm

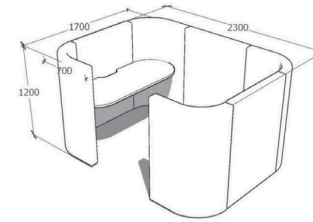

LOW BACK DOUBLE

MDF Construction with concealed glides,
Commercial grade foam
Upholstery: as specified
Seat height 450 mm

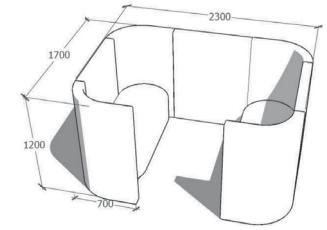

LOW BACK SINGLE

MDF Construction with concealed glides,
Commercial grade foam
Upholstery: as specified
Seat height 450 mm

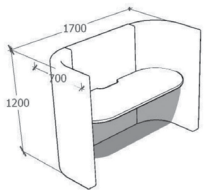

CUBBY OFFICE

MDF Construction with concealed glides,
Commercial grade foam
Upholstery: as specified Plywood top with forbo furniture linoleum top surface in available colours
Desk top height 720 mm

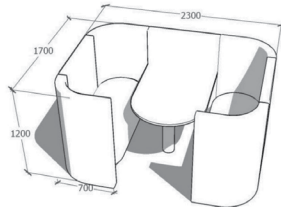

HIGH BACK DOUBLE BOOTH

MDF Construction with concealed glides,
Commercial grade foam
Upholstery: as specified
Seat height 450 mm

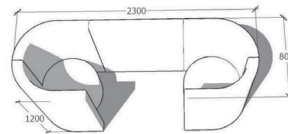

CUBBY DESK

MDF construction with concealed glides,
Upholstery: as specified
Plywood top with Forbo furniture linoleum top surface in available colours
Desk top height 720mm

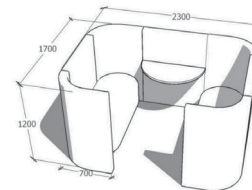

HIGH BACK DOUBLE BOOTH WITH TABLE

MDF construction with concealed glides,
Commercial grade foam
Upholstery: as specified Mild steel base powder coated to Standard Dulux or Interpon colour range Plywood to with Forbo furniture linoleum top surface in available colours
Desk top height 720mm
Seat height 450mm

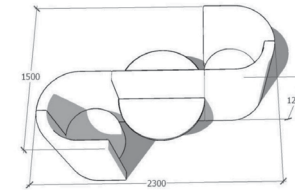

HIGH BACK SINGLE BOOTH

MDF construction with concealed glides,
Commercial grade foam
Upholstery: as specified
Seat height 450mm

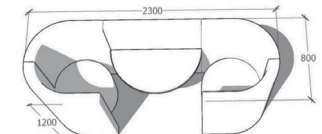

HIGH BACK DOUBLE BOOTH WITH LEDGE

MDF construction with concealed glides,
Commercial grade foam
Upholstery: as specified Plywood top with Forbo furniture linoleum top surface in available colours
Desk top height 720mm
Seat height 450mm

HIGH BACK SINGLE S-BOOTH WITH LEDGES

MDF construction with concealed glides,
Commercial grade foam
Upholstery: as specified Plywood top with Forbo furniture linoleum top surface in available colours
Desk top height 720mm
Seat height 450mm

HIGH BACK SINGLE BOOTH WITH LEDGE

MDF construction with concealed glides,
Commercial grade foam
Upholstery: as specified Plywood top with Forbo furniture linoleum top surface in available colours
Desk top height 720mm
