

SMALL SCALE SKINCARE CONTRACT MANUFACTURING SPECIALIST

Over 25 years of Experience

info@emutracks.com.au

Full Service from Concept to Finished Product

- Do you have a dream, an idea, a project that requires expert assistance?
- Thinking of creating your own product or range of skincare or haircare?
- Do you require Contract Manufacturing, OEM or ODM services?
- Emu Tracks is the skincare, small run specialist. We can offer runs as low as 100 pieces, depending on a number of variables. Preferable and more economic batch sizes are 500-1000 pieces per individual product.
- We can create, formulate, design, manufacture, fill, label, package and stamp.
- Emu Tracks specialises in offering small production runs and has over 25 years experience in skin care manufacturing. There are few contract manufacturing options available when it comes to low volume manufacture.
- Based in South Australia, Emu Tracks is able to offer a wide range of manufacturing related services including product development, formulation, marketing advice, labelling and packaging through to manufacture of cosmetic, skincare and haircare.
- For more information concerning our contract manufacturing capabilities, please provide a comprehensive assessment of your project including the current status and email to info@emutracks.com.au with your name, company and full contact details along with any questions.
- How much does it cost? That depends on many factors. Based on an extensive brief, we are able start with product development by creating initial samples for evaluation. Depending on complexity of product, initial sample costs range from AUD \$150-\$350 per product. Subsequent sample variations may range from \$80-\$250 per product.

START HERE: Please complete and forward the below evaluation form to assist us in your project.

What type or style of product/s are you interested in and how many variations?	
Do you have an existing formula or do you require formulation development?	
What existing branded product is most similar to your concept? We are able to evaluate an existing product and adjust it to your needs.	
Have you considered or sourced packaging? Please provide details of the type, style and source of your packaging or provide pictures of your intended or ideal style.	
If you have not as yet considered packaging, will you be sourcing packaging or would you want us to source? There are limited options available ‘off the shelf’ in Australia. If we are to purchase direct from an overseas manufacturer, there are MOQ’s (minimum order quantities) usually of 5,000 or 10,000 pieces or more. You would be required to pay for the full quantity up front including freight and delivery on overseas supplies may take around 3-4 months.	
What pack size or sizes do you want to offer?	
What type of decoration to the packaging including screen printing, adhesive label, application or printing do you require, if any? Will you be creating the artwork? We prefer ‘Print Ready Artwork’. Will you be supplying a finished adhesive label? Will you be wanting us to apply a label if adhesive type?	
Is there to be any outer packing? Who creates, sources and supplies this and what style and type of material?	
Are any tamper proofing measures required? How and what style?	
If the product has a fragrance, have you selected one? You will be required to purchase samples to provide us the exact fragrance you desire. We are able to suggest fragrance suppliers.	
Do you require batch stamping with Best Before/Expiry dates? Are there any other requirements you have for the product?	
What batch size do you anticipate first up? We require at least an indication of this.	
What time frame do you anticipate in getting the product to market?
