

MAC Trade Services – Terms & Conditions of Contract (South Australia)

*Offer applies to existing single storey Class 1 properties that have no reticulated/natural gas connected to the property, single storey Class 2 Dwellings & single storey SA Small Businesses who are replacing an existing electric boosted solar hot water system.

Rinnai Sunmaster System 10 valued at \$5,200 inc GST supplied & installed.

Available to existing SA homes & small businesses that have not replaced the hot water system under REPS before, are not connected to a reticulated gas supply and are replacing an existing electric boosted close-coupled solar hot water system.

Rinnai Sunmaster System 7m valued at \$5,200 inc GST supplied & installed.

Available to existing SA homes & small businesses that have not replaced the hot water system under REPS before, are not connected to a reticulated gas supply and are replacing an existing electric boosted lo-line solar hot water system.

Offer valid until 7/6/2022. Hot water installation prices are subject to site inspection & changes to government incentives. Contact us today to determine your eligibility. These offers are only available on supply and installation of the system by HOTWATER COM AU or their accredited representative and all REPS credits created under these offers must be assigned to their nominated energy retailer. MAC Trade Services is the responsible party for all REPS related claims and activities performed by HOTWATER COM AU. Any issues or queries regarding installation or warranty, please contact MACTS on 1300 430 917.

*Savings calculated based on a 2 adult, 2 children household with medium daily hot water use. Visit the SA Governments website to calculate your savings; <https://www.sa.gov.au/topics/energy-and-environment/using-saving-energy/water-heaters/water-heater-calculator>.

iStore 180lt Air to Energy Heat Pump

*Available in the greater Adelaide area. Offer valid until 30th November 2023 unless Scheme or offer is changed prior. Offer applies to Class 1 properties that have no reticulated/natural gas connected to the property, Class 2 Dwellings & SA Small Businesses that are replacing an existing external electric storage tank or existing heat pump system. All installation quotes are subject to site inspection. Customers must contact MAC Trade Services to find out if they are eligible for the offer based on their property's existing set-up. Rebates vary based on the property's energy connection status, location (based on climate zones) and model of the new system being installed. Other tank sizes, fuel types and brands are available upon request. Offer only available on supply and installation of the system by HOT WATER COM AU or their accredited representative; all REPS credits created under these offers must be assigned to MAC Trade Service's (MACTS) obliged Energy Retailer partner.
