

RETURN TO WORK & INJURY MANAGEMENT

MASTER BUILDERS
SOUTH AUSTRALIA

Ensure your interests are being protected when managing workers compensation claims.

Did you know that all businesses that employ more than 30 workers for three or more months are required to appoint a certified Return To Work Coordinator?

If you do not have a person qualified to undertake this role, you can outsource this to our Injury Management Consultant to be your registered coordinator to meet the compliance required by ReturnToWorkSA.

Master Builders SA offers a full Return To Work and Injury Management Service approved by ReturnToWorkSA, to manage any workplace injury claim.

We also offer an adhoc consultancy service which is available to all members who do not require a full time coordinator. This is particularly beneficial for small companies (less than 30 employees) who require guidance and assistance when faced with a Return to Work claim.

To find out more, contact our Return To Work Coordinator on 8211 7466 - 0439 815 604 or email injury@mbasa.com.au

Further benefits of this service include:

- An experienced, knowledgeable and dedicated Return To Work coordinator with more than 10 years of experience
- No direct contact with claims agent - this is all managed on your behalf
- Managing relationships with workers, doctors and case managers
- Attending medical reviews, hosting of case conference and work site/return to work assessment, arranging referrals to doctors, and providing a return to work support service on your behalf
- Ensuring liability of claims is determined correctly, reviewing or pay records, ensuring correct payment of worker entitlements and submitting for reimbursement, and
- Advice and support regarding legislation, worker and employer obligations, and dispute rights
