

# Backyard Nature

Our yards provide important habitat for many animals. With just a few native plants, some logs, rocks, and water we can create a nature refuge right outside our door. How many creatures do you have in your backyard?

What can you do to attract more?

*Ants*

*Monarch  
Butterfly*

*Common  
Ladybird*

*Wolf Spider*

*Slater*

*European  
Honeybee*

*Millipede*

*Earwig*

*New Holland  
Honeyeater*

*Blue Banded  
Bee*

*Rainbow  
Lorikeet*

ILLUSTRATIONS BY JASON TINDALL

We encourage you to learn about the Traditional Owners of your area and how they used the plants, animals and landscape over the last 65,000 years – all forming an important part of their spiritual and cultural beliefs.
