

# UniPak Baling Twine

## HD TWINE and BIG SQUARE

### Introducing the high-tech range of twines from UniPak.

Manufactured using unique 'hybrid fibrillation' technology, UniPak twine offers uniform softness with less abrasion, to provide smoother running, less mechanical wear on knotters, exceptional knot strength and superior performance with outstanding value for money.

The UniPak range has a product for every application. Starting at small square twine, right through to big square, high density and ultra high density twines - all colour coded for easy identification. UniPak has a product for every baling machine, every material, every crop type and every condition.

- ✓ Manufactured using Hybrid Fibrillation
- ✓ Superior Knotting
- ✓ Smoother Running
- ✓ Soft on Knotters
- ✓ Less Mechanical Wear
- ✓ Advanced Polymers
- ✓ UV Stabilised

### BALE MASTER

**Formulated for Ultra HD applications**, such as straw baling with extreme compression and bale weight, Bale Master provides a solution to knot slippage for Ultra High-Density machines such as Krone and Claas. A heavy-weight champ providing a whopping 320kg knot strength.

Runnage: 95 | Length: 2 x 950m | Weights: 2 x 10kg Packs | Knot Strength: 320kg

### TERRACOTTA WARRIOR

**Suited to most all HD machines** and newly improved with a massive 300kg knot strength. Terracotta Warrior is well matched to most HD applications and comes in a high-visibility rust colour. The biggest selling twine in the Unipak stable for its all-round HD performance.

Runnage: 105 | Length: 2 x 1050m | Weights: 2 x 10kg Packs | Knot Strength: 300kg

### GREEN MACHINE

**Standard Big Square twine** with high performance compared to most Standard Big Square twines on the market. Green Machine boasts 245kg knot strength, so this popular twine offers peace of mind and provides a little bit more security for standard big square bale.

Runnage: 120 | Length: 2 x 1200m | Weights: 2 x 10kg Packs | Knot Strength: 245kg

### GOLDEN BOY

**Standard Big Square twine** delivering economy at 2700m length, with 210kg knot strength. Best suited in non-challenging 3x3 and 4x3 standard (non-HD) applications, providing great value for money. The high visibility gold colour assists separating material when feeding out.

Runnage: 135 | Length: 2 x 1350m | Weights: 2 x 10kg Packs | Knot Strength: 210kg

OCT2025

WHICH COLOUR  
is right for you?

### ORANGE CRUSH

**Extra-thick Small Square twine**, designed for easier handling, with a thicker diameter. This twine is easier on your hands and offers higher performance at 120kg knot strength. Orange Crush comes in a hi-vis colour to help easy separation upon feeding out.

Runnage: 242 | Weights: 2 x 6.31kg Packs  
Length: 2 x 1525m | Knot Strength: 120kg

### BLACK PANTHER

**Small Square twine** is in a user-friendly 4500m twin pack to give you a compromise of long runnage and strength. Made from high grade polymers, it holds 80kg knots in black. Also suitable for Horticultural Applications.

Runnage: 350 | Weights: 2 x 6.43kg Packs  
Length: 2 x 2250m | Knot Strength: 80kg

### BLUE RIBBON

**Small Square twine** in a user-friendly 4500m twin pack to give you a compromise of long runnage and strength. Made from high grade polymers, it holds 80kg knots in a high visibility blue. Also suitable for Horticultural Applications.

Runnage: 350 | Weights: 2 x 6.43kg Packs  
Length: 2 x 2250m | Knot Strength: 80kg

### SMALL SQUARE PINK

NEW  
IN 2025

**Small Square Baling Twine is now available in PINK**, joining our existing colour lineup: blue, black, and orange. This new addition means more choice without compromising on the same great performance and the same spec as its blue and black 'small square family'.

Runnage: 350 | Weights: 2 x 6.43kg Packs  
Length: 2 x 2250m | Knot Strength: 80kg

### ROUND BALE

Manufactured for easy running to feed onto round bales, Round Bale is supplied in a 8500m light blue twin pack. Manufactured in Europe to ensure good quality application. Also suitable for horticultural applications.

Runnage: 850 | Weights: 2 x 5kg Packs  
Length: 2 x 4250m | Knot Strength: 70kg L/S

### ROUND BALE XL

The same specification and quality as our Round Bale twine, but with **43% more twine** - in an economical 12200m pack!
