

# Great Cocky Count

WORKSHOP

Spread your wings and join us for an information session all about our charismatic southwest black-cockatoos, the annual Great Cocky Count, and how you can get involved!

The Great Cocky Count is a long-term citizen science survey and the biggest single survey for black-cockatoos in Western Australia. At dusk on April 14<sup>th</sup>, volunteers will monitor and count black-cockatoos as they arrive to roost at known sites.

Records submitted from across the southwest provide a snapshot of threatened black-cockatoo populations, and over time this has helped us quantify the changes in their numbers.

During this workshop, you will learn about the three species of black-cockatoos in southwest WA, local black-cockatoo projects, how to get involved with the survey and what else you can do to help black-cockatoos in your neighbourhood.

Presented by BirdLife Australia

Tuesday  
**5 March 2024**

**5.30pm - 7.30pm**  
light supper provided

**Mandurah**  
58 Sutton Street (PHCC Shed)

**RSVP essential**  
by 27th February to
