

BUSH GEMS[®]
— Kangaroo Paw —

ANIGOZANTHOS BUSH SUNBURST

Bush Sunburst is an excellent choice for adding a vibrant splash of colour to your landscape throughout the entire year. Bred by the team at Kings Park Botanic Garden in Western Australia, this midsize Bush Gem gives a pop of colour to any landscape.

Ideal for planting in well-drained soil in a sunny position, Bush Sunburst thrives in bright, open spaces where it can fully showcase its eye-catching floral display. The robust growth habit and resilience ensure that it provides continuous, long-lasting colour and interest in your garden.

When used as a focal point or as part of a larger planting scheme, this versatile plant brings a lively and dynamic touch.

HIGHLIGHTS:

- Superior quality
- Drought hardy once established
- Low maintenance
- Spectacular colour range
- Year round flowering
