

About Us

Sydney Pet Dentistry has highly trained, experienced staff whose goal is helping pets with dental and oral diseases. Established in 2007, we are the longest running pet dental service in NSW.

With our focus on the mouth, and our dedicated modern dental hospital (the first of its kind in Australia), we offer advanced diagnostics and treatments for dogs and cats.

Our emphasis is on communication, providing you with all of the available treatment options to help you decide what is best for you and your pet.

Our Services

Dental health is a crucial part of your pet's overall well-being.

We have a wide range of skills and services that allow us to treat even the most challenging dental problems.

The 'perfect smile' is not always the most important goal for our pets. We can achieve a healthy, pain-free, mouth in our patients with a combination of ...

- Advanced dental diagnostics
- Anaesthesia for high-risk patients
- Multimodal pain management
- Root canal, pulp capping to save teeth
- Fast extractions with minimal bone removal for improved outcomes
- Oral surgery (trauma, cancer, cysts)
- Orthodontics, bite assessment

Our Dental Vets

Dr Christine Hawke
