

# College Strategic Plan

2023-2027

## School Culture

Our focus is to foster a healthy Christian culture evidenced by Christ-like attitude and behaviours in our staff and students. Our priority is to develop compassion, service and leadership ability in the staff and students, so that we all are prepared in spirit, soul, and body, to serve the Living God in today's world.

## Leadership Development

Our focus is to cultivate and promote a leadership development culture in which we train up Christian education leaders for the future needs of the College and the wider education sector across all sections of the College (College Board, Principal, Executive, Teaching and Non-Teaching Staff).

## Curriculum: Strengthening the Educational Program

Our priority is having the best possible curriculum that develops students to seek truth, beauty and goodness that God has established in His world, as the mirror of the reality of being made in the image of God, so that our students delight in their lifelong calling.

## Pedagogy: Strengthening the Educational Practice

Our priority is to strengthen school-wide classroom practice by developing a TCC pedagogical framework in the Liberal Arts tradition, so that we develop learners who are responding to God's truth, beauty and goodness and who wonder at the glory of God and the splendour of His Kingdom.

## Stewardship & Sustainability

Our focus is on being good stewards of what God has entrusted to us in our finances, facilities, resources and property. Our priority is to develop sustainable business practices that will deliver responsible fiscal management, quality facilities, great resources and exceptional property presentation in a sustainable way, that provides a tangible expression of both God's good creation and our role as His image bearers in stewarding finances, facilities, resources and the property of the College.

## Stakeholder Engagement

Our focus is to strengthen healthy stakeholder engagement processes with all College stakeholders, including parents, students, employees, alumni, suppliers, local community and governing bodies. Our aim is to develop a greater community engagement with the school's vision and purpose through clear communication strategies, and engaging stakeholders' input and advice in implementing the vision of the College.

## Christian Mission

Our focus is to develop a community that seeks the welfare of others in the College, in the city and beyond, through serving our community as Christ served.
